

Ally Brannon

Software Engineer

Atlanta, GA | (678) 358-6453

github.com/allybrannon | [linkedin.com/in/allybrannon](https://www.linkedin.com/in/allybrannon) | allison.brannon@gmail.com

Software engineer with experience in Python, HTML, CSS, JavaScript, jQuery, React, and PostgreSQL languages. Prior to becoming a software engineer, I worked in retail managing teams and producing strong sales and profitability results.

Education

Georgia State University | B.B.A Marketing | Atlanta, GA

2000 - 2004

DigitalCrafts | Certificate in Software Engineering | Atlanta, GA

January 2020 - May 2020

Software Development Portfolio

Project - HoldMyLiquor | <https://github.com/allybrannon/HoldMyLiquor>

- Worked with a team of 2 other developers to create a website built for searching and commenting on beverages. Users can login to the site to see favorites, other user comments, and drink recipes.
- Technologies- HTML, CSS, Bootstrap, JavaScript, Node.js, Express.js, PostgreSQL

Project - Quotable | <https://github.com/allybrannon/Quotable>

- Worked with a team of 2 other developers to create a front-end site
- Built using 3 API's to create a website that quizzes the user on quotes and authors.

Project - Llamaritas Taco Adventure | https://github.com/allybrannon/Llamaritas_Taco_Adventure

- First group project at DigitalCrafts. I worked with 2 other developers to create a Python game.
- The game is built with Python and allows the player to try and eat enough tacos and drink margaritas while avoiding cacti.

Professional Work Experience
